

Authors instructions Mater. Sci. Eng. A

Submission of papers:

Manuscripts (1 original and 2 copies with one set of original figures) must be submitted at the registration. After final acceptance a disk/CD ROM copy and two hardcopies of the revised paper with one set of original figures suitable for reproduction need to be returned to the appropriate co-editor. Please note: Electronic submission to Materials Science and Engineering A will **NOT** be accepted by the co-editors; all submissions must be made by hardcopies.

Submission Language: English

Original material: Submission of an article implies that the work described has not been published previously (except in the form of an abstract or as part of a published lecture or academic thesis), that it is not under consideration for publication elsewhere, that its publication is approved by all authors and that, if accepted, it will not be published elsewhere in the same form, in English or in any other language, without the written consent of the Publisher.

Detailed instructions on manuscript preparation and artwork instructions can be found below. The editor reserves the right to return manuscripts that do not conform to the instructions for manuscript preparation and artwork instruction, as well as papers that do not fit the scope of the journal, prior to refereeing.

Manuscript Preparation:

General:

Editors reserve the right to adjust style to certain standards of uniformity. Original manuscripts are discarded one month after publication unless the Publisher is asked to return original material after use. An electronic copy of the manuscript on disk should accompany the final accepted version. Please use Word, Word Perfect or LaTeX files for the text of your manuscript.

Structure:

Follow this order when typing manuscripts: Title, Authors, Affiliations, Abstract, Keywords, Main text, Acknowledgements, Appendix, References, Tables and then Figure Captions. For submission in hardcopy, do not import figures into the text - see Illustrations. Collate acknowledgements in a separate section at the end of the article and do not include them on the title page, as a footnote to the title or otherwise.

Text Layout:

Use double spacing and wide (3 cm) margins. (Avoid full justification, i.e., do not use a constant right-hand margin.) Ensure that each new paragraph is clearly indicated. Present tables and figure legends on separate pages at the end of the manuscript. If possible, consult a recent issue of the journal to become familiar with layout and conventions. Number all pages consecutively, use 12 or 10 pt font size and standard fonts. Print the entire manuscript on one side of the paper only. Do not submit manuscripts in double column format.

Corresponding author:

Clearly indicate who is willing to handle correspondence at all stages of refereeing and publication, also post-publication. **Ensure that telephone and fax numbers (with country and area code) are provided in addition to the e-mail address and the complete postal address.** Full postal addresses must be given for all co-authors. Please consult a recent journal paper for style if possible.

Abstract:

A self-contained abstract outlining in a single paragraph the aims, scope and conclusions of the paper must be supplied. The abstract should be between 100-150 words in length (50 words

or less for letters).

Keywords:

Immediately after the abstract, provide a maximum of six keywords (avoid, for example, 'and', 'of'). Be sparing with abbreviations: only abbreviations firmly established in the field may be eligible.

Units:

Follow internationally accepted rules and conventions: use the international system of units (SI). If other quantities can not be avoided, give their equivalent in SI.

References:

All publications cited in the text should be presented in a list of references following the text of the manuscript.

Text: Indicate references by number(s) in square brackets in line with the text. The actual authors can be referred to, but the reference number(s) must always be given.

Example: "... as demonstrated [3,6]. Barnaby and Jones [8] obtained a different result"

List: Number the references (numbers in square brackets) in the list in the order in which they appear in the text.

Examples:

Reference to a journal publication:

[1] J. van der Geer, J.A.J. Hanraads, R.A. Lupton, J. Sci. Commun. 163 (2000) 51-59.

Reference to a book:

[2] W. Strunk Jr., E.B. White, The Elements of Style, third ed., Macmillan, New York, 1979.

Reference to a chapter in an edited book:

[3] G.R. Mettam, L.B. Adams, in: B.S. Jones, R.Z. Smith (Eds.), Introduction to the Electronic Age, E-Publishing Inc., New York, 1999, pp. 281-304.

Illustrations:

The following formats are accepted by Elsevier: .gif, .jpg, .svg

For details see the information about Illustrations at

<http://authors.Elsevier.com/locate/authorartwork>.

Colour Costs and Queries:

For colour illustrations, a colour printing fee is charged to the author per colour page. Further information concerning colour illustrations and costs is available from Author Support at authorsupport@elsevier.ie, and at <http://authors.Elsevier.com/locate/authorartwork>.

FREE ONLINE COLOUR

If, together with your accepted article, you submit usable colour and black/white figures then Elsevier will ensure, at no additional charge, that these figures will appear in colour on the web (e.g., ScienceDirect and other sites) regardless of whether or not these illustrations are reproduced in colour in the printed version.

Please note: Because of technical complications which can arise by converting colour figures to "grey scale" (for the black/white printed version of e-colour) please submit in addition usable black and white versions of all the colour illustrations. Also make sure that in your captions and text you do not refer to colour, as the images will be black and white in print, and references to colour will not make any sense to the reader of the print journal.

'Usable' means the formats comply with our instructions. For colour illustrations in the print journal see colour costs above.

Tables:

Tables should be numbered consecutively and given suitable headings. Tables may be included in the text if produced by the same text processing program. Otherwise each table is to be laid out on a new page. No vertical rules should be used. Tables should not duplicate results presented elsewhere in the manuscript (for example, in graphs). Footnotes to tables should be typed below the table and should be referred to by superscript lowercase letters.

Supplying final accepted text on disk:

Once the paper has been accepted by the editor, an electronic version of the text should be submitted together with 2 final hardcopies of the manuscript. **The electronic version must match the hardcopy exactly.** We accept most wordprocessing formats, but Word, WordPerfect or LaTeX is preferred. Always keep a backup copy of the electronic file for reference and safety. Label the disk with your name, manuscript number, journal title, and software used. Save your files using the default extension of the program used. Electronic files can be stored on 3.5 inch diskette, ZIP-disk or CD (either MS-DOS or Macintosh).

Notification:

Authors will be notified of the acceptance of their paper by the editor. The Publisher will also send a notification of receipt of the paper in production.

Copyright:

All authors must sign the Transfer of Copyright agreement before the article can be published. This transfer agreement enables Elsevier to protect the copyrighted material for the authors, but does not relinquish the authors' proprietary rights. The copyright transfer covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microfilm or any other reproductions of similar nature and translations. Authors are responsible for obtaining copyright from the holder permission to reproduce any figures for which copyright exists. Elsevier has preprinted forms for use by Authors in these cases, available online.

PDF Proofs:

One set of page proofs in PDF format will be sent by e-mail to the corresponding author, to be checked for typesetting/editing. The corrections should be returned within 48 hours. No changes in, or additions to, the accepted (and subsequently edited) manuscript will be allowed at this stage. Proofreading is solely the author's responsibility. Any queries should be answered in full. Please only correct factual errors, or errors introduced by typesetting. Please note that once your paper has been proofed we publish the identical paper online as in print.

Author Benefits:

No page charges: Publication in this journal is free of charge.

Free Offprints: Twenty-five offprints will be supplied free of charge. Corresponding authors will be given the choice to buy extra offprints before printing of the article. Authors who pay for colour illustrations will receive an extra fifty offprints free of charge.

Author Discount: Contributors to Elsevier journals are entitled to a 30% discount on all Elsevier books.

Online Paper Tracking:

Authors can track the status of their accepted paper online at <http://authors.elsevier.com> using the reference supplied by the Publisher.
